## Professional Experience

*May 2009 – Dec 2012*     **Suzlon**

Established an economic research cell that focused on global economic updates, exchange rate analysis, interest rate forecasting, energy prices, and climate change policies. The role has since expanded to include corporate and customer intelligence projects, and subsequently, business planning for the entire group.

*May 2007 – Mar 2012*     **Fidelity Investments**

Coordinated marketing analytics through statistical models toward preventing attrition of customers, as well as the assets they held with Fidelity Investments.

*May 2007 – Mar 2012*     **Genpact**

Coordinated marketing analytics through statistical models that targeted customers who were more likely to respond to marketing and outreach programs.
